

FMW100™ LOW PROFILE RIDGE VENTILATOR MODEL FMW100-35 • 3-1/2" THROAT

PLYCO FMW-100-35
painted steel
Ridge Vent

The Plyco
FMW100-35
provides a large
vented area of 36 sq.
inches per foot of vent
and helps eliminate
constantly dark
buildings. The
translucent
fiberglass rain
diverter
directs water
out but lets
the sun
shine in.

*Keep all the features of our MW100-35 Ridge Vents –
BUT NOW you can get the natural light built right in!*

Due to Plyco Corporation's on going commitment to product improvement, we reserve the right to change, without notice, product specifications, availability, prices and conditions of sale.

Products are shown with options, please contact your representative.
